### And it’s only the beginning!
Stay tuned as we come back on May 4th & June 8th with more exclusive live content.
Our Secret Formula

**Unique Content**

For the first time ever, the RealTime Conference brings together cross-industry pioneers from around the globe to explore and propel the transformative impact real-time technologies are having on Business, Art, Industry, and Society. With our speakers’ approval, we are gathering the recorded live sessions along with extended presentations, building a one-of-a-kind library of exclusive video content about the most advanced tools, applications, and innovations in real-time technology.

**Daring**

The RealTime Conference leapt full force into real-time, launching what is, as far as we know, the first fully virtual complete conference, featuring speakers in six time zones and attendees in twice that many, with 13+ hours of live, interactive, virtual convening per day. RTC offers an embracing, global, and inclusive venue for the broadest international, cross-industry, multi-faceted gathering of leaders, innovators, speakers and attendees who are forging the future of and with real-time.

**Togetherness**

At the RealTime Conference, we know that the need for a sense of community has rarely been so strong. Live panel discussions, Q&A and chat, and networking breaks and our Virtual Speakers Lounge offer our real-time community the opportunity to interact with each other in multiple ways, generating a unique sense of togetherness and camaraderie all over the world. Thank you to our community of speakers and attendees for their generosity in sharing knowledge and creating real-time conversations with such open-mind.

---

**RTC 2020**

**RealTime Conference**

2 days of conference

27 hours of programming

60 expert speakers

100% live streamed broadcast

International program with speakers from 6 time zones, 14 hours broadcast without interruption, so that we unite as a community from wherever in the world.

3 engaging formats

live chat

live Q&A

live Virtual Speakers Lounge.

Very active chat conversations between attendees and panelists, commenting, sharing tips and contacts, and making connexions.

55 questions per session on average in the Q&A.

12 networking breaks in the Virtual Speakers Lounge.
But don’t just take our word for it…

“Loads of really inspirational insights from global leaders in the field. Thank you RealTime Conference and all involved! @chrisfollowsart
Emerging Technologies Lead at University of the Arts London

“Bravo to the entire team for opening up the conversation across industries around real-time technologies these past two days.

Doug Cooper
VP Themed Entertainment
DreamWorks Animation

Girish Balakrishnan
Director, Virtual Production at Netflix

490K
estimated media coverage views

What a great conference to attend. Future is exciting.
@dimashkomek
Visual creator

Congrats on hosting an awesome digital conference! I was really impressed with how quickly you pivoted and offered an outstanding conference.
Josh Gonsalves
Co-Founder CEO
Contraverse

A different kind of event is coming.

The live chat side of RealTime Conference is really great. Some real pros giving great practical answers.
@ian_fawkes
VFX journalist. Editor of ‘Befores & Afters’

Bravo Jean-Michel Blottiere and team for leading a brilliant RealTime Conference exploring real-time for virtual production, gaming, animation and more.
Declan Kennedy
Faculty at Ulster University

Unlike other annual events.
The First #RealTimeConference by the numbers.

The right time for real-time.

The first ever RealTime Conference was a phenomenal gathering of the field. Thank you for being such a fantastic part of it, we could not have done it without you. Our success is your success!
