Dear RealTime Conference Community,

We are now working hard to prepare the 2021 season. Until the next RealTime Conference, please keep in touch, curious, and informed. We'll be adding more videos regularly. And follow us on social media to keep the conversation going.

With that, I leave you with a note to keep enjoying real-time and spreading the word!

Thank you all for believing in us.

Thank you for your contributions to our mission, and for furthering the interests and values of visual effects artists around the world. Thomas Haegele, co-Founder of RealTime Conference.

A big thank you to our partners and friends who support us financially. Without you, and your generous contributions to our mission, there would be no RealTime Conference. They all represent our key strategic partners, who have supported us financially with donations.

The success of RealTime Conference is due to the overwhelming positive feedback: RTC stood out from the crowd, and our small team worked tirelessly to prepare, rehearse, communicate, host, troubleshoot, monitor, record and more, to provide the best experience to our participants.

We live streamed 67 hours of exclusive keynotes, presentations, panel discussions, real-time live demos, and talks featuring 153 top-notch experts on real-time innovations in Architecture, Automotive, Construction, Digital & Interactive, Design, Film, Game, Healthcare, Manufacturing, Retail, Transportation, Technology, TV, Video and Web.

We do hope you and yours are in good health, wherever you are on the planet, and enjoying the end of the summer in the Northern hemisphere and the beginning of Spring in the Southern one.

We are exceedingly proud to announce that RTC Co-Founder Thomas Haegele was awarded a VES Lifetime Achievement Award for meritorious service to the Society, the industry and to those of you who recognize that RTC has real value. Some may believe that a virtual event is costless. While it is true that it is possible to put on an event for no cost, the magnitude of RTC requires a significant investment of both money and effort, as our small team contributed to the event. Your support is essential to RTC's success.

With the huge amount of time, effort, and money involved, RTC is not free. Your support is critical to RTC continuing to succeed and make a difference.

In May, we received overwhelming positive feedback on our semiannual RealTime Conference. In April and June, our online convenings continued to provide a platform for the visual effects industry to gather together over exclusive keynotes, presentations, panel discussions, real-time live demos, and talks featuring 153 top-notch experts on real-time innovations in Architecture, Automotive, Construction, Digital & Interactive, Design, Film, Game, Healthcare, Manufacturing, Retail, Transportation, Technology, TV, Video and Web.

RTC Co-Founder Thomas Haegele has received a VES Lifetime Membership.

Onward!

Michael Fink, President

RealTime Conference established itself as the world’s premiere forum for real-time technologies. Owing to visionary的眼光, Michael Fink and the team of partners have developed a series of industry events that have reached an international audience over the last 15 years, and for many years to come! Thank you VES for this honor which brings honor and pride to our young event.
