RTC Spring 2021 is a wrap!
Up next: RTC November 15 - 17

11,053
Real-Time Community Members

| 112 Countries | 6,013 Attendees in April 2021 | 48 hrs Live real-time sessions | 740 Average attendees at any time | 1000+ Simultaneous unique viewers |

A smashing success

6,013 real-time community members signed up for our April 26 – 28 event, for 48 non-stop hours of real-time live sessions. Our program was designed to follow the sun and time zones around the world, and we were delighted to have an average of 740 attendees participating at any time, with a very impressive start of 870 unique viewers on day one, hour one, rising to 1,000 participants a few hours later!

More detailed statistics from RTC April 2021 coming soon, (check our website for updates) but we wanted to share these excellent figures for an event which just celebrated its first anniversary! A total of 11,053 attendees have registered since our first conference in April 2020, representing 112 countries, for a remarkable global reach.
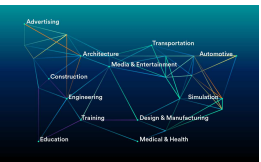

A stellar line-up and a gathering of diverse communities, all of them passionate about Real-Time technologies.

Kudos to our 150 + speakers, curators, and hosts, who took the floor, in real-time, for three 16-hour days of live sessions. If you missed RTC April, please check our program and speakers pages. This was a stellar gathering of mind-blowing luminaries. Gratitude!

Mission accomplished: RTC fulfilled a major goal to bring together communities too often siloed. Digital Fashion merged with Game Developers and Digital Humans Pioneers, Live Broadcast Show professionals engaged with XR, Health Specialists joined Data Professionals, Events Producers mingled with Movie Makers, Architects exchanged with Real-Time Media, Artists schmoozed with Blockchain and NFTs specialists, Sports Broadcasters dove into Volumetric Capture, unlocking new forms of monetization...

In Real-Time, using Real-Time tools, on one of the most advanced Real-Time LED Stages in the world!
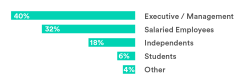

RTC's speakers came together, live, from around the globe. Some experts even came as metahumans! The event was hosted from NantStudios' extraordinary LED stage, an innovative approach which pushed the boundaries of what virtual events can be! Kudos to NantStudios team for an exhausting but exhilarating performance, with an outcome beyond all expectations!

Solid Partners & Dream Audience

A huge thank you to our partners. You've been supporting us from day one, when we had just a few concept slides. And here we are, one year later, with a world-class event. Thank you. You are definitely visionaries and we couldn't have achieved all of this without your support.

Last, but not least, thank you to our RTC attendees. You are a dream audience for a professional event: leaders, decision makers, and innovators. No doubt about it: The Real-Time Community is rising and RTC is its hub!

RTC Fall 2021 - Save the Dates
November 15, 16 & 17, 2021

POPULATING THE METAVERSE

Bye-Bye RTC Spring – Welcome RTC Fall

RTC Fall will take place November 15, 16 & 17 (Save the Dates!)

Following up on our April event theme "The Rise of the Metaverse", RTC November 2021 will focus on "Populating the Metaverse". We will dive into the history of Avatars, explore how we can propel ourselves in the Metaverse (far beyond "playmobil" looking digital doubles), and discover how the "formidable" potential of tools such as Metahuman Creator, combined with XR & Videogame technologies, unlock a mind-blowing future, where ubiquity becomes real...

We have already started working on the program for our Fall Conference but we invite you to join the conversation: as a speaker, a host or even a curator of one of our upcoming series of talks.

Interested in participating? Shoot an email at program@realtimeconference.com, mentioning the title of your potential talk or role, and a few lines describing its content, and our curators will evaluate your proposal to see if it's a good fit. We look forward to hearing from you!

Congrats on another successful conference!

The quality of the talks and overall experience was outstanding

A few testimonials

A fabulous event, informative and fun! A very rewarding experience for everyone who participated. – **Lisa Cooke**, Chair, VES Board of Directors

The RealTime Conference continues to thrill and surprise me with its remarkable roster of speakers across a wide range of industries. I was particularly thrilled to see tracks and panels that brought together those speakers from their varied industries. It quickly became apparent how many opportunities there are to make the world a better place by sharing our expertise. I'm grateful for these insights that couldn't have happened without RTC... and I can't wait for the next one! – **Alex Coulombe**, Creative Director, Agile Lens

Congratulations for the excellence in this edition of the Real Time Conference, you guys have gone above and beyond. Congratulations to all the team, these things are not easy, but it looked so seamless that it seems like you've been doing it for years – **Joao Luis Gomez Diaz**, Staff Software Engineer, Walt Disney Animation Studios

It was wonderful to participate in the program this year! I sincerely enjoyed it - it was a very professional remote experience for speakers. I'll be taking some notes for how we can prepare our own contributors at SIGGRAPH. :) – **Callie Holderman**, 2021 Immersive Chair at ACM SIGGRAPH || MR/VR/XR Creative Technologist

Such an innovative approach to host it all in a virtual set as well. It must have been an incredible amount of work to make this happen, thank you so much, simply amazing, way beyond all my expectations – **Henry LaBounta**, Senior Art Director Consultant

Congratulations to you all on a great and polished event, with the most impressive guest list! – **Alex McDowell**, Co-Founder, Creative Director at Experimental Design

Thank you team RTC! It was a great event and big achievement - well done! We're very keen for the next event – **Hayley Miller**, Marketing & PR Manager, MPC Episodic

I have to say, I was really impressed with RTC. It was really well run and the quality of the talks were superb. I watched a very big portion of all 3 days and was really engaged. Thank you so much for letting me be a part of it, and congratulations on having created such a great experience – **Christopher Nichols**, Director of Chaos Labs

What a fantastic event! RTC is moving the ball down the fields in our industry – **Jeffrey A. Okun**, VES

Congratulations RTC Team! You planned, negotiated, gathered, and beautifully hosted another even more accomplished RealTime Conference. A success! – **Jan Pinkava**, Director

Real-Time Conference provided once again the critical insights to the next reality we are stepping into - a photorealistic Metaverse where the real and virtual merge seamlessly together and barriers for social interactions begin to disappear. On behalf of myself and Varjo, we thank the organizers and everyone in the Real-Time community for setting a new global benchmark for virtual events and exceptional speakers – **Jussi Mäkinen**, CMO, Varjo

Congratulations to RealTime Conference entire team on a successful RTC! It was an awesome three days! You all deserve a nap and a pat on the back! – **Stephanie Reney**, Field Marketing Manager, Epic Games

RTC 2021, 'The Rise of the Metaverse' was Epic! As someone who has attended previous RTC events in the audience, it was certainly an honour to speak alongside those industry leaders that I admired from the audience only a year ago. In addition to learning from the very best in the real time industry, the networking opportunities have directly led to several immediate sales leads with some world leading brands. Thank you Jean-Michel for all you do for our industry, perhaps you can tell everyone they keep spelling Metal/Rae wrong ;) – **Alan Smithson**, Co-Founder - MetaVRse

The quality of the talks and overall experience was outstanding – **Alex Stolz**, Founder and Creative Director Future of Film

Thanks once again for having me and the rest of my colleagues, what a fantastic show! – **Kari Woolley**, Global Real-Time Director, Immersive & IA, Framestore

Congrats on another successful conference! – **Matt Workman**, Virtual Production Developer

The RTC website was refreshingly intuitive and full of helpful tools. The speakers and their talks were insightful and inspiring - it was exciting to see the tools becoming available that are driving rapid changes for animation production. I'm already looking forward to next year's conference! – **Kirill Yeretsky**, Freelance Creative Director | Animation Director | Art Director
