The World's Premiere Event for Real-Time Technologies
The Year-Round Hub for the Global Real-Time Community

RealTime Society    RealTime Economics Summit

www.realtimeconference.com
Real-Time technologies are growing at an unprecedented pace and are shaping countless industries in their wake. RealTime Conference (RTC) brings together the leaders, innovators, experts, aficionados, and advocates who are shaping the future - in real time and with real-time technologies - across industries and around the globe.

**21,281 Participants**
With 21,281 participants since its inception in April 2020, RTC has established itself as the World’s Premiere Event for Real-Time Technologies. No other event provides access to such an elite and influential group of people.

**A Global Benchmark for Virtual Gatherings**
For 48 hours, RTC produces a stunning live show, packed with real-time live demos, panels, workshops, masterclasses, and top-notch keynote speakers. RTC is about real-time, happening in real-time (no pre-recorded sessions), and using real-time tools.

**The Year-Round Hub for the Global Real-Time Community**
RTC is also the community hub to share and discover the very best of what’s new and what’s next with the real-time technology, tools, and applications that are rapidly transforming the ways we work, communicate, interact, and grow our businesses; remotely, collaboratively and in real-time.

---

**RTC returns on November 7 – 9, 2022 – Fully Virtual**

The theme of RTC 2022 is:

**Creativity, Technology, Economics**

**The Open Metaverse Paradigm**

After “Building the Metaverse” (April 2021) and “Populating the Metaverse” (December 2021), RTC continues to explore the way real-time technologies enable the creation of the Metaverse / Web 3.0, through three different perspectives: Creativity, Technology, and Economics.

From Web 3.0 to Open Metaverse, from Virtual Production to Broadcast, from Digital Fashion to Retail & 3D Commerce, from Platform to Cloud Technologies and Infrastructure, from glTF & USD to Open Source, from Training & Simulation to Architecture, RTC September 2022 brings knowledgeable leaders, experts and innovators from all over the world to learn, share, network, recruit and grow their businesses, across industries and across the globe.

RTC is community driven, free and fully virtual – thus carbon foot-print aware.

---

“I have to say, I was really impressed with RTC. It was really well run and the quality of the talks were superb. I watched a very big portion of all 3 days and was really engaged. Thank you so much for letting me be a part of it, and congratulations on having created such a great experience.” – Christopher Nichols, Director of Chaos Labs - Los Angeles
Worldwide & Impactful

21,281 Total Attendance Since April 2020
122 Countries

58% Have Been Working in Their Industry for More Than 10 Years
92% Will Include Real-time Solutions in their Processes, Products or Services in the Next 2-3 Years
99% of Attendees Recommend RTC to Friends and Colleagues!

“RealTime Conference provided once again the critical insights to the next reality we are stepping into - a photorealistic Metaverse where the real and virtual merge seamlessly together and barriers for social interactions began to disappear. On behalf of myself and Varjo, we thank the organizers and everyone in the real-time community for setting a new global benchmark for virtual events and exceptional speakers.” – Jussi Mäkinen, CMO at Varjo - Helsinki
Empowering Industry Crossover

Cross Industries - Cross-Pollination
We bring together the industry thought leaders, influencers and innovators from around the globe in real time and with real-time, across industries and market sectors that are too often siloed. RTC creates a unique opportunity for industry crossover & cross-pollination by bringing people together who learn from one another, transmit & apply that information back to their respective fields, and grow their business.

Digital Fashion gurus merge with Game Developers and Digital Humans Pioneers, Health Specialists join Data Professionals, Architects exchange with Real-Time Media, Sports Broadcasters dive into Volumetric Capture, unlocking new forms of monetization...

Technology, Tools and Industry Expertise
Real-time technology is fundamental to many key industries, each with a sophisticated set of custom real-time tools and applications that play a critical role in business. These new tools enable creativity, deliver growth and create competitive disruption in new markets across the globe. Understanding the transformative power of real-time leads to better business decisions that future-proof your organization.

“Bravo to the entire team for opening up the conversation across industries around real-time technologies these past two days – Girish Balakrishnan, Director, Virtual Production at Netflix - Los Angeles
**Business Oriented**

We deeply understand RTC must deliver sales value. RTC program is structured to lead attendees towards workshops, masterclasses, user groups, tools of tomorrow presentations, real-time live demos or recruiting activities.

“In addition to learning from the very best in the real time industry, the networking opportunities have directly led to several immediate sales leads with some world leading brands” — Alan Smithson, Co-Founder, MetaVRise - Toronto

**Community Driven**

Meet the World’s Real-Time Experts and participate in the discussion! Learn from the best, meet with your peers, greet your clients, promote your company, accelerate time-to-revenue, grow your business, speed time-to-market, share your knowledge and experience and contribute to the growth of the most vibrant and passionate community ever: the Real-Time Community!

“I feel so grateful to be part of the real time community and to be able to talk to others innovating and creating with the technology, thanks to events like this bringing everyone together. Every year my mind is blown and I’m already looking forward to the next RTC!” — Julia Lou, Lead Unreal Engineer, NantStudios - Los Angeles

**Free**

We want to facilitate the access to the real-time community, wherever attendees are on the planet. A huge thank you to our sponsors, whose generous support allowed us to present the Conference for free once again in December 2021!

“You planned, negotiated, gathered, and beautifully hosted another even more accomplished RealTime Conference. For free !!! A success!” — Jan Pinkava, Creative Director, Google / ATAP - Portland

**Fully Virtual & Carbon Footprint Aware**

RTC is not only setting up a new global benchmark for virtual events, but it is also emphasizing reducing the carbon footprint, minimizing travel expenses and hassle, as well as the environmental costs of traditional events.

“Your RTC conference was just amazing, congratulations! I was able to tune into a few presentations and all were great quality content. Such an innovative approach to host it all in a virtual set as well. It must have been an incredible amount of work to make this happen, thank you so much, simply amazing, way beyond all my expectations.” — Henry LaBounta, Senior Art Director - Minneapolis

**Gender Inclusive**

RTC works hard to bring more women and talents from around the globe. Thank you to Mariana Acuna-Acosta, Kim Adams, Diana Arellano, Charlotte Bavasso, Elizabeth Baron, Rachel Bradshaw, Kathryn Brillhart, Stephanie Bruining, Philippa Carroll, Lara Cawsey, Charmaine Chan, Kathleen Cohen, Diana Coelis, Lynn Comp, Lisa Cooke, Karen Dufilho, Jude Forbes, Joanna Garner, Barbara Ford Grant, Jen Goldfinch, Marientina Gotsis, Karina Grant, Yvonne Grankowicz, Cathy Hackl, Renate Haegels, Cortney Harding, Christina Heller, Callie Holderman, Sallyann Houghton, Damara Inglês, Amber Jae Sloaten, Carmen Kam, Janet Katsnelson, Connie Kennedy, Lauren Kunze, Dalia Lasaite, Michela Ledwidge, Emily Levy, Janet Lewin, Odile Limpach, Sandra E. GROW YOUR BUSINESS

Why Sponsor RTC?

Expand Market Share
Our approach is community driven, and sponsorship is a key component. Highly motivated sponsors are invited to consult on RTC programming, to address the needs of the real-time community, which also allows our partners to significantly grow their business and market share.

Accelerate Time-to-Markets
RTC is the single source to bring your products to market across multiple industries. RTC attracts companies looking for solutions and ready to invest right now. 92% of our attendees said their companies are likely or very likely to increase their investment in real-time technology and tools and/or add new real-time solutions to their processes, products or services in the next two-to-three years.

Generate New Leads
86% of RTC audience are Professionals, 82% are Decision Makers. 64% Executive/Management. RTC is the global connective tissue for creators, users, developers and investors in real-time technology and tools. Showcase your solutions, answer technical questions in real-time, and convince potential clients.

Increase Brand Exposure
Promote your brand, tools, and expertise to players in the global real-time community. Elevate your organization’s identity among industry leaders, technical experts, and real-time practitioners in a targeted market. RTC provides visibility options at all levels and price points.

Discover new Business Ideas
Hear from leaders in all areas of real-time, from industries with innovative strategies for growing their business using real-time, and from attendees looking for real-time solutions – maybe yours!

Engage with Highly Motivated Professionals
RTC offers a wide range of opportunities for engagement with professionals around the world. Instant chat and video options allow you to reach out to all attendees. RTC main sponsors have access to email contacts and to detailed analysis of audience and leads.

Recruit Top-Notch Talent
RTC offers a unique opportunity to recruit high-level professionals. Pitch your company to our 21,000+ attendees and conduct interviews in the intimacy of your own virtual suite.

“In addition to learning from the very best in the real time industry, the networking opportunities have directly led to several immediate sales leads with some world leading brands” – Alan Smithson, Co-Founder at MetaVRse - Toronto
MAXIMIZE YOUR IMPACT

A Powerful Ecosystem

Extending beyond our global RealTime Conference events, RTC has embarked on a strategic plan to meet the needs of the real-time community, as it grows.

RTC offers the vibrant real-time community the most complete resource and holistic hub for real-time professionals to come together to learn, share, and explore collaboratively and in real time - all year long, from anywhere on the planet.
RealTime Society is a member-driven and collaborative problem-solving organization addressing topics such as Interoperability, Education, Recruiting, etc. RealTime Society brings together industry-leading companies and individuals on the forefront of real-time technology development and applications across industries.

The RealTime Society mission is to:

- **Bring Together**
  Bring together leaders, engineers, practitioners, innovators, creators, decision makers, and financial experts to work together and inspire each other.

- **Identify and Solve Problems**
  Identify problems, define expected outcomes, and facilitate collaboration of experts to solve these problems.

- **Facilitate Cross-Pollination**
  Facilitate cross-pollination between communities, knowledgable experts, industries and market sectors that are too often siloed.

- **Inspire & Support**
  Create a space for socialization between peers, support and strengthen members’ real-time work, and inspire RealTime Society members through shared perspectives from different industries.

- **Previsualize the Future**
  Encourage advancements in products, services, and uses of real-time technologies that anticipate evolutions, previsualize and forge the future.

- **Boost Visibility and Recognition**
  Provide visibility to stakeholders, at all levels, recognize advancements, and honor achievements in real-time through awards and events.

---

“In a short time, RTC has become the place to be for meeting people who share a vision for the development of real time applications across multiple industries.” – David Morin, Industry Relations - Epic Games • Executive Director - Academy Software Foundation
SHARE YOUR VISION

RealTime Economics Summit
From Promise to Reality
May 15 & 16, 2023
In-person
New York - Museum Of The Moving Image

The RealTime Economics Summit is an exclusive in-person invitation-only summit for 250 business and creative professionals in the real-time industries.

A wonderful opportunity for C-level executives, entrepreneurs, and investors to come together to forge relationships, share ideas and collaborate on steering and influencing the future direction of real-time technologies across too-often siloed industries.

“Congratulations to Jean-Michel and the team on another successful RTC. Thanks for inviting Adobe to be part of the conversation around the Metaverse. We enjoyed our participation very much and we were proud to be part of such a qualitative line-up.” – Sebastien Deguy, VP 3D & Immersive – Adobe

Thank you to the visionaries who are supporting these initiatives
